13th February 2026

All Accounting Officers (Central and Local Government Votes),

All Executive and Managing Directors of State-Owned Enterprises and Public Corporations

THE SECOND BUDGET CALL CIRCULAR ON FINALISATION OF MINISTERIAL POLICY STATEMENTS AND DETAILED ESTIMATES OF REVENUE AND EXPENDITURE FOR FY2026/27

A. INTRODUCTION

1. The Second Budget Call Circular for FY2026/27 is issued in accordance with Section 12 (1), (2), (3), (11), (14) and (15) of the Public Finance Management Act, Cap 171 and Regulation Number 10 of the Public Finance Management Regulations, 2016. It guides all Accounting Officers in the preparation of the Ministerial Policy Statements and detailed estimates of revenue and expenditure for the financial year 2026/27.
2. The budget theme for FY2026/27 is: **'Full Monetization of Uganda's Economy through Commercial Agriculture, Industrialization, Services Expansion, Digital Transformation, and Market Access.'** Next year's budget will deliberately be directed to key policy areas that lead to enhanced human capital development, productivity, jobs and wealth creation.
3. Preparation of this circular was informed by consultations with key stakeholders, including H.E. the President, Cabinet, the Presidential Advisory Committee on the Budget (PACOB), Parliament during its review of the National Budget Framework Paper (NBFP), Ministries Departments and Agencies of Government (MDAs), Development Partners, the Private Sector and members of the Civil Society.
4. The purpose of this Second Budget Call Circular for FY 2026/27 is to communicate the following:
 - i) The resource envelope and expenditure ceilings for FY2026/27. This Circular supersedes the First Budget Call Circular whose resource envelope has since been revised;
 - ii) Recommendations of Parliament on the National Budget Framework Paper for FY 2026/27 for your consideration as you finalise the budget for FY 2026/27;

Mission

"To formulate sound economic policies, maximize revenue mobilization, ensure efficient allocation and accountability for public resources so as to achieve the most rapid and sustainable economic growth and development"

- iii) The policy and administrative guidelines for finalising the detailed budget and Ministerial Policy Statements (MPSs); and
 - iv) The requirements to reinforce compliance with cross-cutting issues including gender, equity, climate change, and social inclusion.
5. The FY 2026/27 will be:
- i) The second year of implementing the Fourth National Development Plan (NDP IV), which is the first plan to deliver the Tenfold Growth Strategy and the last plan to deliver the 2030 Agenda for Sustainable Development;
 - ii) The first year of implementing the Charter for Fiscal Responsibility, for the period FY 2026/27 to FY 2030/31; and
 - iii) The first budget to implement the NRM Party Manifesto for the FY2026/27-2030/31.
6. The budget for FY2026/27 will prioritize the ATMS and Enablers. Particular attention will be on cleaning up and enforcing execution discipline. In this regard, this circular communicates budgeting and expenditure rules for strengthening fiscal efficiency, strengthening budget execution discipline, and increasing productivity.
7. In this regard, several budget efficiency reforms will be implemented during FY 2026/27. These include:
- i) Alignment of frameworks for review of ineligible expenditures under the Government of Uganda development budget with the frameworks used for external (donor) financing.
 - ii) Introduction of the Accounting Officers' Budget Discipline Charter for managing public funds. This demands fiscal discipline, adherence to work plans, timely budget submission, robust internal controls. It also emphasises personal accountability by Accounting Officers to Parliament for ensuring proper use of money, with penalties for non-compliance like failing to implement Auditor General's recommendations or mismanaging funds.
 - iii) Implementation of a rewards and sanctions framework to recognise good performers and sanction bad performers in all MDAs and Local Governments. This is in line with Staff Performance Contract Management as stipulated in Section A (A – n) of the Public Service Standing Orders 2021, and Section 77 of the Public Finance Management Act, Cap 171.
8. In order to sustain the momentum on implementation of the Tenfold Growth Strategy, Accounting Officers should ensure that all investments during FY 2026/27 are evaluated and prioritised in terms

of their contribution to the four parameters of performance of the economy. These parameters are:

- i. Prioritising enablers,
- ii. Export growth,
- iii. Fiscal returns, and
- iv. Private sector growth.

B. RESOURCE ENVELOPE AND EXPENDITURE CEILINGS FOR FY2026/27

9. *The revised resource envelope* for FY2026/27 is projected at **Shs. Shs 78.249 trillion**, reflecting an increase of **Shs 8.85 trillion** from the **Shs. 69.399 trillion** initially communicated in the First Budget Call Circular. A detailed breakdown of the resource envelope is provided in **Annex 1**.
10. *Indicative Planning Figures (IPFs)*: Following the adjustment of the resource envelope in Annex 1, the Medium-Term Expenditure Framework (MTEF), **Annex 2**, has been revised at Vote level, setting the final expenditure ceilings for all Central Government Votes. Similarly, the Local Government IPFs were revised and generated off the Online Transfer Information Management System (OTIMS), and detailed in **Annex 3**.
11. In line with the above adjustments, all Accounting Officers are requested to revise their budget estimates as per the current IPFs. These are hard ceilings with no post-submission negotiations. You are required to exercise allocative efficiency to achieve maximum impact through efficient and strategic allocation of resources.
12. *Parliamentary Submission*: In accordance with Section 12(3) of the Public Finance Management Act, Cap 171, the Minister of Finance, Planning and Economic Development will present the draft budget estimates to Parliament by 1st April 2026.
13. Accounting Officers are required to submit their draft budget estimates for FY2026/27 to this Ministry by Thursday, 5th March 2026 for review, consolidation, and onward submission to Cabinet and Parliament for approval. Local Government Accounting Officers should ensure their respective Councils approve their budgets by the same date.

C. RECOMMENDATIONS OF PARLIAMENT ON THE NATIONAL BUDGET FRAMEWORK PAPER FOR FY 2026/27

14. Parliament approved the NBFPP for FY2026/27 with recommendations. Some of these are of policy and administrative nature while others had

financial implications. A summary of these issues is provided in **Annex 4** for your attention and consideration as you finalise your detailed estimates of revenue and expenditure for FY 2026/27. **Failure to incorporate applicable recommendations by Parliament will result in non-clearance of the Vote.**

D. GUIDELINES FOR FINALISATION OF DETAILED BUDGET ESTIMATES AND MINISTERIAL POLICY STATEMENTS (MPSs)

Structure of Ministerial Policy Statements

15. The structure of Ministerial Policy Statements (MPSs) has not changed. In line with Sections 12 (14) and (15) (a)-(i) of the PFMA, Cap, 171. Every MPS must include the following:

- i. Achievements of the vote for the previous financial year;
- ii. The quarterly work plans and outcome, the objectives, outputs, targets and performance indicators of workplans and outcomes;
- iii. The annual procurement plan of the vote;
- iv. The annual recruitment plan of the vote;
- v. Actions taken to implement Parliament's recommendations based on the Auditor General's report for the preceding financial year;
- vi. The vote's cash flow projections;
- vii. A gender and equity compliance certificate issued by the Minister responsible for Finance in consultation with the Equal Opportunities Commission, detailing measures to equalize opportunities for marginalized groups;
- viii. A vehicle utilization report; and
- ix. Asset Register of the vote, in the format issued by the Accountant-General.

Cabinet Directive on Governance projects and initiatives

16. In line with **Cabinet Minute 164 (CT 2025)**, and as you finalize your budgets for FY2026/27, you are directed NOT to enter into agreements or Memoranda of Understanding with Development Partners on governance issues without prior clearance from Cabinet. Any financing proposals from Development Partners on Governance issues shall be subjected to a consultative process with stakeholders, including this Ministry, the Ministry of Justice and Constitutional Affairs, Ministry of Foreign Affairs, and the Ministry of Internal Affairs. Strict adherence is required, and any deviations will be considered a breach of Cabinet directive.

Job and Wealth Creation

17. Under the NDPIV, Government targets to create an average of 845,000 jobs annually both in the formal, informal as well as the public sectors, and across all the sixteen (16) industrial economic zones.
18. To ensure this is achieved, Accounting Officers are advised to: plan and budget outputs in all the ATMS and Enablers as key growth drivers that generate jobs and lead to productivity and wealth creation; ensure full recruitment for positions where Government has already fully provided for the required wage; plan and budget for data collection to facilitate quarterly reporting on jobs created in your respective programme areas during budget execution.
19. Additional information on how to undertake the quarterly reporting on jobs will be provided in the Budget Execution Circular for FY2026/27.

Finalisation of Strategic/ Development Plans, Client Charters and Service Delivery Standards

20. All MDAs should prepare their Strategic Plans and Service Delivery Standards for the period FY2025/26 – 2030/31 in line with the NDPIV. Similarly, the Head of Public Service and Secretary to Cabinet directed that appointment and confirmation of Accounting Officers should be supported by evidence that the MDA has in place the following: an approved Strategic Plan (for Central Government Votes) or Local Government Development Plan for Local Governments, aligned to the NDPIV; an approved Client Charter; and approved Service Delivery Standards.
21. Submissions without the required documents as listed above, will be returned unprocessed.

Program Working Groups

22. The Development Plan Implementation (DPI) Programme, through the Office of the Prime Minister, developed and issued the NDPIV Implementation Coordination and Reporting Guidelines (attached as **Annex 5**. These guidelines are to facilitate the functionality and effectiveness of all Program Working Groups (PWGs). As you finalize the estimates for FY2026/27, please ensure that you allocate funds for the functionality of Program Working Groups.

Alignment of Ministerial Policy Statements (MPSs) and Detailed Estimates for FY 2026/27 with the Ten-Fold Growth Strategy, the Fourth National Development Plan (NDPIV) and the NRM Manifesto 2026-2031

23. Programme Implementation Action Plans (PIAPs) are the anchor frameworks for linking the NDPIV to the vote workplans and budgets. As a result, all Accounting Officers are expected to align their budget

estimates and Ministerial Policy Statements to their respective PIAPs and the NRM Manifesto 2026-2031.

Prioritisation of complementary public investments to support commercial investments under the ATMS

24. Government has identified the first portfolio of priority commercial investments aligned to the ATMS framework. These investments are intended to anchor Uganda's transition to double-digit economic growth by leveraging private capital, technology, and managerial know-how, while accelerating export growth, job creation, and structural transformation. Details of these priority investments were communicated in the Budget Strategy for FY 2026/27.
25. Therefore, Accounting Officers are directed to ensure that their draft estimates for FY2026/27 explicitly prioritise, cost, and sequence the complementary public investments required to unlock and operationalise the identified commercial investments under the ATMS. These include, but are not limited to, last-mile infrastructure, utilities, regulatory and standards infrastructure, skills development, land access, logistics, digital infrastructure, and targeted institutional support.

Tracking Allocations to the ATMS and Enablers.

26. To strengthen implementation discipline and last-mile delivery, all Accounting Officers should plan and budget for outputs and milestones that are linked to the ATMS commercial investments. These should be fully integrated into final budgets with clear attribution to investment outcomes, including private capital mobilised, jobs created, exports generated, and productivity gains.
27. This Ministry has developed a tracking and implementation framework that will guide the analysis of your budget items before consolidation for submission to Parliament for alignment to this prioritisation framework. For more details, kindly refer to the budget website at www.budget.finance.go.ug under the section on circulars and instructions. Any budgets that do not meet the required standards will NOT be uploaded on the PBS and IFMS.

Strategic Resource Allocation, Prioritising Core Mandates and Provision for Critical Obligations

28. In view of the of resource limitations, you are advised to fit priorities within the available budget ceilings. Budgets should focus on core mandates and high-impact actions. You are advised to channel funds to activities that deliver the most value, while avoiding small, scattered allocations to non-essential items.

29. Some Votes consistently request for virements and supplementary funding for critical obligations that should have been adequately budgeted for at the planning stage. This practice continues to undermine effective budget planning, which culminates into mid-year budget pressure during execution.
30. Therefore, sufficient allocations must be provided for expenditure areas that are historically prone to virements and supplementary requests. Unwarranted virements will be declined, and supplementary requests that do not fully comply with the Public Finance Management Act, Cap 171, will be rejected. Effective FY2026/27, this will be used as one of the parameters to measure performance of Accounting Officers.

Budgeting for digital systems

31. In line with the Government's commitment to efficient digital governance and elimination of duplication in public digital infrastructure, the Ministry of ICT and National Guidance has established a Governmental Digital Registry (GDR) to profile and maintain a comprehensive inventory of all Government digital assets of all Ministries, Departments and Agencies, (MDAs). This registry enables real-time visibility of existing digital systems across Government and identifies areas of potential duplication or inefficiency.
32. Accordingly, all MDAs and LGs are required to seek and obtain clearance and approval from the Ministry of ICT and National Guidance prior to including any budget provisions for new digital systems, ICT infrastructure upgrades, software applications, or digital transformation initiatives in their annual budget submissions. You are also to submit the proposed digital initiatives to the Ministry of ICT & National Guidance through the GDR, three (3) months before the budget submission deadline to allow adequate time for technical review and clearance. Budget submissions that include digital system components without the requisite approval from the Ministry of ICT and National Guidance will not be considered during the budget review process.

Budgeting for ICT Services.

33. Cabinet approved the Strategy for Rationalisation and Harmonisation of ICT Services across Government under Cabinet Extract 216 (CT 2012). Furthermore, the NITA-U E-government regulations 2025 require MDALGs to use the National Backbone Infrastructure as a primary vehicle for ICT and pay for these services among others. Effective FY 2026/27, All Accounting Officers, Heads of State-Owned Enterprises and Parastatals are required to fully budget and pay for the ICT services rationalised under NITA-U as per the attached **Annex 6** of the consumption per entity.

Implementation of the Parish Development Model (PDM)

34. Since 1st July 2021, Government has capitalized 10,589 eligible PDM SACCOs to a tune of Shs. 3.788 trillion and is in the into the *Sustainability and Acceleration Phase*, to be undertaken on a village-by-village basis. This phase prioritizes the following:
- i) Preparation and continuous handholding of PDM beneficiaries at Practical Training Centres (PTCs);
 - ii) Coordination of business development services including access to quality inputs and markets with the support of Community Based Facilitators (CBFs), before disbursement of funds; and
 - iii) Planning and budgeting for the full activation of all PDM services through the compilation of State of the Parish Economy and Asset Register (SPEAR) reports and development of Parish Action Plans (PAPs) that articulate parish-specific priorities.
35. Accordingly, all Local Government Accounting Officers should fully budget for all activities under the Sustainability and Acceleration phase of the PDM under the Extension, Production and Marketing grants. The activities for the compilation of the SPEAR report and development of Parish Action Plans should be budgeted and funded through the Discretionary Development Equalization Grant (DDEG).
36. All Local Government Accounting Officers should note that no Local Government's Annual Workplan and Budget shall be approved unless the SPEAR reports for all the parishes under its jurisdiction have been submitted via the Local Government Statistics App.

Formalization and Professionalization of Enterprises

37. Under PDM, the Household Enterprise in the **Business Unit** while the PDM Enterprise Group is the **Business Organization** through which the household enjoys membership benefits including aggregation, credit, standards, inputs and collective voice.
38. Therefore, PDM Enterprise Groups are registered as Community Based Organisations (CBOs) under the NGO Act, 2016. Accounting Officers are accordingly required to ensure that, with effect from FY2026/27, establishments and functionality of the District Non-Governmental Organisation Monitoring Committee (DNMC) and the Sub-County Non-Governmental Organisation Monitoring Committee (SNMC), as guided by the NGO Act, 2016 which provide for registration and supervision of the activities of Community Based Organisation (CBOs) and professional associations, are fully functional.
39. Accounting Officers are further required to budget for monitoring and support mass roll out and access to Business Development Services

(BDS) by aggregators and off-takers of commodities from PDM Enterprises in line the National Business Development Services (BDS) Framework. They should guide PDM Enterprise Groups on implementation of industry standards, codes of ethics, and qualifications, while offering peer-to-peer learning, capacity building to improve performance of PDM Enterprises Groups as business organisations

Implementation of the Area-Based Commodity Development

40. Government adopted Area-Based Planning under NDP III to narrow inequality gaps in economic growth and national development. An Area-Based Commodity Development (ABCD) Portal has subsequently been developed and deployed to facilitate commodity value chain development at sub-national level. The Portal - <https://www.abcdportal-finance.go.ug> - is designed to onboard commodity value chains that have attained critical data availability thresholds; and to complement aggregation, marketing and financing of PDM commodity value chains.
41. Effective FY2026/27, this Ministry will prepare and publish a data gap map of Ministries, Agencies and Local Government (MALGs) against which respective Accounting Officers will be required to implement a Data Management Reform Plan (DMRP) for closing identified data gaps. For the commodity value chains that are already active on the ABCD Portal (Coffee, Tea and Maize), the Accounting Officers of MAAIF and MoLG are required to submit their DMRPs as per the official format.

Clearance of Domestic Arrears

42. Effective this FY2025/26, this Ministry adopted a phased approach to eliminate domestic arrears over the next three financial years. This was followed by the domestic arrears verification exercise by the Office of the Auditor General through KPMG to ensure only confirmed/verified domestic arrears are considered for settlement. Accounting Officers who submit inflated arrears to this Ministry will be held accountable and sanctioned.
43. Accordingly, this Ministry shall prioritize settling domestic arrears verified by the Office of the Auditor General following completion of the aforementioned verification exercise. All your budget submissions for FY2026/27 must include a clear, phased plan for clearing existing arrears while implementing measures to halt creation of new ones. This requires strict internal controls, adherence to procurement plans, and proper contract management. Officers who fail to budget and pay for clearance of arrears or who incur new arrears will be held personally

liable in line with Section 77 of the Public Finance Management Act, Cap 171.

Wage, Pension, and Gratuity Parameters

44. The Budget for wage, pension, and gratuity for FY 2026/27 is based exclusively on verified payroll and pension audit outcomes, the joint wage and staffing harmonisation undertaken by the Ministry of Public Service and the Ministry of Finance, Planning and Economic Development, and validated data on the Programme-Based Budgeting System (PBS). These parameters are binding, and Accounting Officers must comply strictly. Any deviation will not be entertained.

Salaries

45. Votes should budget for salaries strictly in accordance with approved payroll categories and verified staff lists authenticated against National Identification records. Salary estimates must reflect only confirmed and validated personnel. Heads of Departments, in collaboration with Human Resource and Planning Units, should be personally accountable for the accuracy and credibility of salary projections. Any anomalies including ghost workers, misclassification of staff, or inclusion of unverified personnel will be sanctioned and responsible Accounting Officers penalized.

Staff Recruitment

46. Over time, some Accounting Officers have continuously recruited new staff and on-boarded them onto the payroll without any authorization. This conduct has consistently led to wage shortfalls and endless supplementary requests. Accordingly, you are advised to undertake analysis of the wage bills vis-à-vis the staff structure before undertaking any recruitment.
47. All Government Commissions (Central and Local Governments) responsible for recruitment are advised to ensure they objectively recruit and pay staff as cleared by the Ministry of Public Service and Ministry of Finance, Planning and Economic Development. This will be another area of assessment on the performance of Accounting Officers.
48. Accordingly, for FY 2026/27, recruitment must be strictly limited to recruitment on replacement basis, approved recruitment plans, and the approved wage ceiling. No recruitment should be undertaken without prior written clearance from the Ministry of Public Service and confirmation of wage by the Ministry of Finance, Planning and Economic Development. Accounting Officers are cautioned that creation of unfunded wage liabilities constitutes a breach of fiscal discipline and will lead to penalties.

Budgeting for Monthly Pension

49. Pension provisions should be based solely on verified retirement schedules issued by the Ministry of Public Service and duly captured on the PBS. Budget submissions must align exactly with validated pension payroll records. Any overstatement, understatement, or inconsistency will lead to outright rejection of the estimates.

Budgeting for Gratuity

50. Gratuity estimates should cover only eligible contract gratuity and commuted gratuity for officers due for mandatory retirement in FY 2026/27, as cleared by the Ministry of Public Service. No provision should be made for officers outside the approved and verified lists. Inclusion of ineligible beneficiaries will be treated as a serious breach of budget discipline and attract appropriate administrative and legal sanctions.

Funding for Health Supply Chain Commodities

51. For FY 2026/27, all relevant MDAs and Local Governments must budget to implement the National Health Commodities Supply Chain Roadmap, particularly as external financing declines. Designated Accounting Officers across specified MDAs, Local Governments, and Regional Referral Hospitals are advised to allocate funds for their roles in strengthening the supply chain. This includes planning and budgeting for procurement, logistics, ICT systems, road maintenance, utilities such as water and electricity, and other operational support to ensure a consistent supply-chain of essential health commodities.

Non-Tax Revenue (NTR) Forecasting

52. To ensure credible revenue projections and avoidance of mid-year corrections and supplementaries, Accounting Officers must submit detailed, realistic source-by-source revenue forecasts to this Ministry for assessment. You are further required to outline the key reforms and assumptions to improve NTR collections.

Strengthening the Planning Function

53. This Ministry is developing the Planning Strategy to strengthen the planning function. This will detail measures and provide solutions to some of the challenges impacting efficiency and effectiveness of Planning Units across MDAs. The Planning Units are critical in coordinating and managing planning, budgeting, reporting, research and data analysis in MDAs, which guide policies and decision making.
54. Therefore, to boost performance and strengthen their functionality, Government has provided additional **Shs. 200 million** for each Planning Unit in Ministries and **Shs. 100 million** for each Agency and

Local Government Planning Units. **These funds are strictly meant to support in research-based planning, equipping planning units, training and overall facilitation of staff in Planning Units to support the programme approach to planning and budgeting. They must not be diverted for other purposes.**

Variation Between Estimated Project Costs at the Feasibility Stage and Estimated Project Cost at Procurement Initiation (Tender Announcement)

55. It has been observed that costs and scopes of some projects at feasibility stages vary from those at implementation stages. This has been attributed to unauthorized changes in scope among others, consequently distorting the affordability of projects during implementation, which leads to over commitment of the Development Budget.
56. Based on the above, Accounting Officers are guided as follows:
- i. All procurements should be planned and budgeted for as guided by the scope and costs in the approved feasibility studies;
 - ii. The acceptable cost variation between the estimated cost at feasibility stage and budget as at initiation of procurement, should not exceed 15% of the original cost approved at feasibility.
 - iii. Where the estimated cost at initiation exceeds the feasibility beyond the 15% cap, the Accounting Officer should adhere to the Development Committee guidelines section 7.3 and reappraise the project in line with the Public Investment Management Process.
57. In accordance with Regulation 54 (4&5) of the PPDA (Contract) Regulations 2023, this Ministry reiterates that once contracts are signed, any single contract variation should not increase the total contract price by more than 15% of the original contract price, and that for cumulative variations, not more than 25% of the original contract price. In all cases, justification as per PPDA Act, CAP 205 shall be required for any contract variation.

Improving Planning and Budgeting for Public Corporations and State-Owned Enterprises (SOEs)

58. In line with Section 12 (11) (f), the Honourable Minister of Finance Planning and Economic Development is required to submit the Annual Budget Estimates of Revenue and Expenditure for the next year to Parliament for approval along with the budgets of the Public Corporations and State-Owned Enterprises.
59. The PBS has been enhanced to accommodate budgets for these Institutions. The Executive and Managing Directors must use the PBS to finalize their budgets, at item level to facilitate reporting and accountability. This information will be generated off the system as

Volume III of the Budget to be laid in Parliament. Failure to do so will attract sanctions through the mother Ministries.

60. You are further required to submit your budgets to this Ministry on the PBS and hard copies by 5th March 2026 to facilitate analysis and consolidation. Budgets for non-compliant Agencies will not be approved. Similarly, the Permanent Secretaries are reminded to preside over the Public Corporations, State-Owned Enterprises and Subventions that fall under their respective mandates.

Incorporating Off-Budget Financing in the Budget

61. There are some MDAs that still receive off-budget financing. Such resources are not easily accounted for in line with the implementation of their planned activities. This sometimes leads to multiple counting, duplication of results and avoidance of accountability. To ensure integrated planning and accountability, all Votes receiving off-budget funds are advised to:
- i) Integrate all such funding into their formal work plans and budgets within the PBS;
 - ii) Clearly indicate the source and duration of funding;
 - iii) Ensure this funding aligns with national and district development plans (NDP IV, PIAPs, Tenfold Growth Strategy, etc.);
 - iv) Clearly capture related interventions and outputs in line with PBS structures; and
 - v) Comply with PFMA, CAP 171 sections 34, 37, 40, and 42, which authorize only the Minister of Finance, Planning and Economic Development to mobilize resources for the Government.
62. Failure to disclose and abide by the above provisions constitutes breach of Section 77 (a), (b), and (c) of the Public Finance Management Act, Cap 171.

Public Investment Management

Harmonization of Remuneration Including Terms and Conditions of Service for Project Implementation Units (PIUs) Under Development Partner Support Projects

63. Following the communication from the Permanent Secretary of Ministry of Public Service (*Circular Standing Instruction No.1 of 2026*), this is to give additional guidance on oversight and accountability for management of externally funded projects as you finalize the planning and budgeting for all new projects:

- i. The Accounting Officer is fully responsible and accountable for overall project performance;
- ii. A Commissioner must be appointed as the project manager, and must have the right skills and competence;
- iii. Assign a coordinator from another Department in the event that there is no Commissioner with the right skills set within the implementing Department. Where this is not possible, seek clearance from the Permanent Secretary and Secretary to Treasury to recruit externally;

64. More details regarding *the Roles of the Commissioner as Project Coordinator, Pay and Benefits, and the overall set up of Project Implementation Units will be provided in the Budget Execution Circular.*

65. Further details on this subject matter and detailed job descriptions can be accessed on the Ministry of Finance, Planning and Economic Development website, <https://www.finance.go.ug>.

Projects Exited from the Public Investment Plan (PIP) for FY 2025/26

66. In line with the section 5 of the Development Committee (DC) guidelines, twenty-eight (28) projects (**Annex 7**) were exited. Accordingly, all Accounting Officers whose projects were exited are required to initiate project closure processes by 30th June 2026, including:
- i) Submission of completion/closure reports (covering final outputs, expenditure, lessons learnt and sustainability arrangements;
 - ii) Settlement of any verified outstanding contractual obligations; and
 - iii) Updating the project status in the Integrated Bank of Projects (IBP) and/or other reporting platforms.

Projects Admitted into the Public Investment Plan (PIP) for FY 2026/27

67. Following completion of the PIMS appraisal and approval by the DC, 15 projects (**Annex 8**) have been admitted into the PIP for implementation in FY 2026/27. Responsible Accounting Officers are required to ensure that these projects are adequately prioritised within the available fiscal space and fully provided for in the Medium-Term Expenditure Framework (MTEF), including counterpart funding and any associated recurrent cost implications.

Budgeting for Operation and Maintenance (O&M) of Public Assets

68. In order to safeguard functionality, service delivery and sustainability of public assets, Accounting Officers are required to develop and implement an annual O&M schedule for assets created under their

institutions, indicating the assets, planned O&M activities, timelines/frequency, responsible units and estimated costs, and to use this schedule to guide prioritisation and execution of O&M within the approved workplans and budgets.

Measures to Improve Performance of the Development budget in FY 2026/27

69. The Annual Portfolio Review (APR) for FY 2025/26 noted underperformance of most projects (including low absorption, implementation delays, cost overruns, and failure to deliver intended outputs), which continue to undermine value for money and service delivery. To improve project performance in FY 2026/27, MDAs are required to budget and fast-track the following:
- i) Procurement and contract management;
 - ii) Resolve land acquisition and resettlement issues early;
 - iii) Enhance site supervision and quality assurance;
 - iv) Submit timely and accurate quarterly performance reports on the IBP;
 - v) Operationalise performance-based contracts for Project Managers/Coordinators; and
 - vi) Implement corrective actions agreed during portfolio reviews.
70. Accounting Officers are required to budget for the implementation of the above performance measures within the approved MTEF. You will be held accountable for underperformance of projects and non-compliance with agreed performance improvement measures.

Project Preparation Facility

71. This Ministry established a Project Preparation facility under National Planning Authority to support preparation of feasibility studies for priority investments in line with the PIMS guidelines. Accounting Officers are encouraged to apply to the Executive Director National Planning Authority to access this facility. The guidelines are available on the NPA Website at <https://npa.go.ug>.

Management of Counterpart financing

72. Gaps in the planning, budgeting, and management of Counterpart Funding continue to constrain effective implementation of externally financed projects. These have resulted in project delays, accumulation of arrears, increased commitment fees and interest, delayed donor disbursements, and heightened fiscal and debt risks. Accordingly, all Accounting Officers are advised to comply with the following requirements in the management of Counterpart Funding obligations:

- i) *Budgeting and Prioritization of Counterpart Funding*: All Counterpart Funding obligations should have first call on Programme discretionary resources within approved Medium-Term Expenditure Framework (MTEF) ceilings.
- ii) Accounting Officers should adhere to counterpart funding requirements stipulated in respective project Financing Agreements.
- iii) *Approval of payments of Counterpart Funding*: Effective FY 2026/27, approval of payments for counterpart funding shall be undertaken by Treasury Operations (Vote 130) in line with the approved counterpart workplan in the financing agreement. Items to be approved by Vote 130 will include but not limited to land acquisition, supervision consultancy, co-financing for civil works, insurance, and taxes. The Accounting Officer will initiate the request for payment which will be authorized by Accountant General upon satisfying the above requirements.
- iv) *Full Costing of Externally Funded Projects*: All externally funded projects shall be fully costed at appraisal to include the counterpart requirements over the entire project lifecycle. No project shall be approved, budgeted for, or implemented unless all counterpart obligations are clearly identified and quantified adequately.

Climate Change and Sustainable Public Investment

- 73. All public investments should incorporate climate risk screening, adaptation, and mitigation measures in line with the National Climate Change Policy (2015) and the National Climate Change Act (2021). Votes should prioritise climate-smart investments and explicitly report climate-related expenditures in quarterly budget performance reports.

Environmental and Social Impact Assessments (ESIA)

- 74. Votes should fully budget for Environmental and Social Impact Assessments for all eligible projects in accordance with the National Environment Act 2019 and ESIA Regulations, Statutory Instrument of 143, 2020. Outstanding obligations to NEMA should be prioritised and cleared within the medium-term expenditure framework.

The Item Master – Budgeting for Capital Expenditure

Restrictions on Charging Capital Expenditure Items

- 75. Effective 1st July 2026, Government shall enforce the usage of the GoU Item Master on Capital Expenditure Budgets To ensure that the work plans and budgets are implemented as intended and appropriated. The

Item Master is a list of all products, goods and services that may be procured by Government.

76. The PBS, E-GP and IFMS, have been enhanced to implement the alignment of Capital Budgets to the individual assets or services to be acquired. This implies that entities shall only be able to charge and process payments for capital items that have been budgeted for as per the Item Master. Accounting officers should therefore, pay special attention during budgeting. Failure to do so shall cause budget execution challenges.
77. Note that the Asset register function on the PBS has been de-activated and the registers will no longer be available for users. The **“GOU: Consolidated Assets Register- Budget”** shall be run off the IFMS and submitted for approval of the Budget for FY 2026/2027.

Collaborative/Joint Procurement Arrangements

78. In order to standardize prices, achieve consistent quality standards maximize economies of scale, time efficiency and value for money across Ministries, Agencies and Local Governments, Government will implement the use of collaborative procurement for common user items, by aggregating them under a framework arrangement effective 1st July 2026. The relevant lead agencies will spearhead the procurement, negotiation and contracting processes on behalf of the entire Government, and determine the price that all government entities will use to contract for goods like Computer Equipment & accessories, Motor vehicles/Cycles, Tyres and Tubes among others. Detailed guidelines will be issued to facilitate budget execution.

Sustainable Procurement

79. Effective 1st July 2026, government will integrate sustainability through selected priority products and services, whose sustainability criteria and means of verification have been developed for common user items. In line with the National Public Sector Procurement Policy, 2019 and in order to promote sustainable socio-economic development through innovation, environment protection and social inclusion in the Government procurement process, a common procurement criterion has been developed for specific items like; toner and cartridges, computers and laptops, photocopiers and printers, printing paper, motor vehicles, batteries, cleaning materials and products, electric cables, generators, herbicides and acaricides, textile clothing and accessories, construction timber/wood and wood products, packing products (plastic bottles and polythene bags). Detailed Manuals/Guidelines will be issued during execution to facilitate budget execution.

Economic and Commercial Diplomacy for Missions Abroad

Operationalization of the Economic and Commercial Diplomacy Strategy (ECD)

80. The Economic and Commercial Diplomacy (ECD) Strategic Plan has been fully rolled out for implementation to help Missions abroad contribute to the attainment of the Tenfold Growth Strategy. Accordingly, this Ministry will continue working closely with the Ministry of Foreign Affairs (MoFA) and National Planning Authority (NPA) to help Missions Abroad to fully integrate their ECD interventions in the Programme Implementation Action Plans (PIAPs), and the Missions' Strategic Plans. Accounting Officers of Missions Abroad should provide details of interventions in the PBS with clearly defined activities and report quarterly on the results.
81. The ECD funding is results-based, and consequently, the allocations for FY 2026/27 were guided by: (i) the strategic positioning of Missions with regard to economic potential, (ii) ECD implementation performance in FY2025/26; and (iii) the prevailing conditions for implementing activities; among others.

Consultative Planning and Budgeting by Missions Abroad

82. Section 43 of the Public Finance Management Act, Cap 171 grants the Accounting Officer authority over the budget and execution of annual workplans. While, Section 8 of the same Act requires the participation of all stakeholders in the annual planning and budgeting process. However, it has been noted that some missions do not fully comply with the Law, which causes significant alteration of workplans during implementation.
83. Therefore, Accounting Officers for Missions should ensure inclusive planning and budgeting, taking into consideration regular consultations with the Heads of Missions and other Mission staff on the budget priorities for the year before submission to this Ministry and Parliament for appropriation.

Planning for Revamping of Missions

84. One of the key undertakings in Economic and Commercial Diplomacy is to give Mission properties, where applicable a facelift, aimed at revitalizing Uganda's image and credibility abroad. Accounting Officers of Missions should ensure that, alongside the retooling of Missions, the available development budget for FY2026/27 must be prioritized and rationalized for modernization of Chanceries.

Local Government Budgeting Focus Areas

Use of Indicative Planning Figures (IPFs) and Adherence to Ceilings

85. The final Indicative Planning Figures (IPFs) for Local Government Votes as per Annex 3 have been generated from the Online Transfer Information Management System (OTIMS) utilizing agreed standard indicators, FY 2024/25 performance assessment results and service delivery metrics that informed the allocation formulae by respective MDAs.
86. Therefore, Local Governments must prioritize their core service delivery in line with sub-programme goals and National goals in order to address discrepancies between Local Government priorities and the approved IPF ceilings. Accounting Officers must align their workplans and budgets with the issued ceilings for the respective Local Governments as communicated by this Ministry.
87. In addition, this Ministry has continued to receive requests for budget adjustment arising from poor budgeting by most Heads of Department. You should ensure that you budget correctly using relevant budget lines from the revised item Master Chart of Accounts as no budget adjustments outside the PFM Act, Cap 171 will be accepted during budget execution. Additionally, a **Budget Code 000016** was created for Environment Social Health and Safety (ESHS) safeguards. You should ensure that all ESHS activities are budgeted for under this code. Failure to do so will lead to your budget not being approved.

Planning and Budgeting for New Parishes

88. This Ministry has observed that during the recent general elections, there were new parishes that were gazetted and used amounting 128. However, for planning and budgeting purposes, we have not yet received any official communication from the Ministry of Local Government gazettement them for alteration of boundaries. Accounting Officers are, therefore, advised not to allocate any resources to these new parishes but maintain the old boundaries until officially guided by this Ministry.

Addressing Service Delivery Inefficiencies in Local Governments

89. Local Governments continue to face persistent inefficiencies in public finance management, particularly in the areas of revenue collection, payroll administration, pensions, and Road Grant utilisation. In particular:
- i) Revenue management has been weakened by limited assessment of the revenue bases, poor enforcement, challenges in the use of IRAS, and inconsistencies between IRAS and IFMS as well as poorly supervised collection systems resulting in the underperformance of revenue;

- ii) Recurring cases of payroll and pension management challenges such as delayed access and updates have resulted in persistent requests for supplementary budgets to settle both salary and pension arrears; and
 - iii) The utilisation of road grants has often been hampered by limited technical capacity, procurement delays, and weak monitoring mechanisms, resulting in incomplete works, poor-quality outputs, under-absorption of funds as well as accountability gaps.
90. All the above challenges constrain Local Governments' abilities to deliver timely and effective public services. To address these inefficiencies, Accounting Officers are advised to: address human resource capacity gaps, strengthen the internal control systems for management of revenue, payroll and pensions. Comprehensive road inventories and condition surveys as required by the Ministry of Works and Transport should be put in place. Timely execution of road projects, along with enhanced monitoring and evaluation, should be prioritised to expedite service delivery and ensure greater accountability in the utilisation of public resources.

Location of Cost Centres / Public Institutions

91. This Ministry has received various concerns on the non-alignment of the budgets for Cost Centers/Schools/Health Centres with the respective Votes which greatly affects release of funds, especially for Tertiary Institutions. This misclassification has hindered coordination and led to monitoring challenges and delays in executing approved activities in the Budget.
92. In consultation with the line Ministries and Local Governments, the issues around cost centre location for the FY 2026/27 budget have been resolved with final approved cost centre listings, ensuring proper alignment in the Programme Budgeting System (PBS). Therefore, Any Accounting Officer who fails to align the cost centers during budgeting will be held personally responsible for non-release of funds to the affected facilities.

Ex-Gratia and Councillors' Allowances

93. Following the recently concluded general elections, this Ministry has provided adequate funds for Political Leaders, and the issued IPFs have merged the existing ex-gratia and councillors' honoraria sub-grants into a single sub-grant starting FY 2026/27. This consolidation aims to streamline budgeting, clarify allocations, and enhance the efficiency of payment administration and management at the Local Government level. You should adequately Budget for Political Leaders as this Ministry expects no shortfalls in the Budget for FY 2026/27. In

addition, funds MUST be budgeted for on correct item lines to avoid any limitations during budget execution.

Projections for Locally Raised Revenues

94. Analysis of previous budget performance indicates that some Votes tend to inaccurately forecast local revenues. This compromises budget credibility leading to fiscal issues such as revenue shortfalls, accumulation of arrears, and failure to meet approved commitments during budget execution.
95. As such, you were requested to provide realistic projections, clearly indicating the Non-Wage Recurrent and Development components, as well as the proportions to be remitted to the Sub-Counties and Municipal/City Divisions.
96. Therefore, the final local revenue forecasts for FY 2026/27 were exclusively derived based on the respective Vote submission as reviewed by the Local Government Finance Commission (LGFC) and this Ministry. You are urged to ensure appropriate budgeting clearly stating the Lower Local Government share. Accounting Officers shall be held accountable for the accuracy, credibility of projections, and equitable sharing of the local revenue collected.

Uganda Cities and Municipalities Infrastructure Development (UCMID) Program

97. Government prioritizes infrastructure development in Cities and Municipalities as a key enabler for urban productivity, service delivery, and private sector-led growth under the Fourth National Development Plan (NDP IV).
98. FY 2026/27 will mark the start of implementation of the UCMID program across Cities, Municipalities, and 13 refugee-hosting Districts. The beneficiary entities must accordingly prioritize and allocate funds on correct items in their budgets for high impact urban infrastructure investments such as roads, drainage systems, street lighting, solid waste management, and markets, as per grant guidelines. Additionally, beneficiary Votes must budget for operation and maintenance of the established facilities.

Uganda Inter-Governmental Fiscal Transfers (UGIFT) Program Closure and Operationalization of facilities

99. Whereas UGIFT 1.0 Program closed on 31st December 2025, completion of projects will continue until June 2026. As you finalize the budget, you must ensure that you budget for operational readiness of completed and existing facilities, including staff recruitment and deployment, provision of grants, budgeting for recurrent expenses, securing land

titles, and planning for operation and maintenance to ensure sustainability of the Program's investments.

Framework for Fiscal Transfers

100. All allocations for transfers to Local Governments are premised on the allocations in the approved National Budget Framework Paper for FY 2026/27. Votes should not present proposals that imply the creation of new conditional grant frameworks or the expansion of existing ones beyond the fiscal ceilings established in the NBFP, unless expressly authorized by this Ministry. For each conditional grant administered, the responsible Vote should provide, as part of its budget documentation, a detailed Grant Implementation Letter (GIL) template. This GIL must clearly outline:

- i) The specific national policy objective being funded;
- ii) Detailed output and outcome targets measurable at Local Government level;
- iii) The quarterly disbursement schedule linked to performance;
- iv) Standardized reporting requirements; and
- v) Explicit accountability mechanisms for the Chief Administrative Officer and the respective Sector Technical Officer.

Enhancement of Local Revenue Mobilisation

101. All Local Government Votes are directed to collaborate with the Ministry of Local Government to implement the outcomes of the Local Revenue Mobilisation Strategy. MDA interventions should not undermine the local revenue base. Specifically, Votes should not introduce programs or directives that effectively exempt entities or individuals from legally mandated local revenue obligations.

102. Technical support programmes planned by Votes must include capacity-building components for Local Government revenue staff. Priority areas include digitalization of revenue collection, GIS-based property valuation, and compliance management. Proposals for such support must be coordinated through and approved by the Ministry of Local Government to ensure alignment and avoid duplication.

Alignment with Planning and Procurement Processes

103. All MDA investments to be implemented through Local Governments must be derived from, and explicitly referenced to, the approved District/City/Municipal Development Plan (LGDP) for FY 2026/27. Votes should obtain written certification from the respective Local Government confirming this alignment prior to the finalization of their work plans.

104. Procurement plans supporting conditional grants must be developed by the Local Government and approved by the responsible Ministry. These

plans must adhere to the delegated authority under the Public Procurement and Disposal of Public Assets Act and must be published by the Local Government as part of its annual accountability documents.

Development of sustainable and affordable Housing

105. Increasing availability and access to affordable housing is a priority intervention for socio-economic transformation. In this regard, Local Governments should budget for interventions for finalization and enforcement of physical development plans and integrate relevant interventions such as home improvement campaigns, into their annual work plans and budgets. Local Governments should also: gazette suitable public land for mass affordable housing development; prioritize provision of climate-resilient enabling infrastructure; ensure efficiency in compliance processes, building and environmental approvals; and ensure provision of social services in human settlements.

Cross-Cutting Budget Requirements For FY 2026/27

106. All MDAs and LGs must ensure their FY2026/27 budgets are responsive to the following mandatory cross-cutting themes:

Non-Discrimination, Gender and Equity Compliance, Environment and Social Safeguards

107. Government of Uganda does not tolerate discrimination of any kind, nor gender and equity disparities. As we finalize the budget for FY2026/27, all Accounting Officers are advised to plan and budget for all projects (whether Government of Uganda or externally funded) within the provisions of Article 21 (1) and (2) of the Constitution and Section 12 (11) (e) (i-ii) of the Public Finance Management Act, Cap 171. This emphasizes equality of all persons in access to all opportunities and benefits presented by all projects, without prejudice and discrimination on the ground of sex, race, color, ethnic origin, tribe, birth, creed or religion, social or economic standing, political opinion or disability.

Targeted Interventions for Vulnerable Groups

108. Votes should prioritise high-impact interventions for women, children, the elderly, and other vulnerable groups, focusing on health, education, protection, and economic empowerment, consistent with approved MDA & LG development plans policies and within the available fiscal space.

HIV/AIDS, Epidemics, and Malaria Mainstreaming

109. In line with Presidential Fast Track Initiatives and directives to end HIV/AIDS by the year 2030 and prior Budget Call Circular guidance, all Votes should allocate a minimum of 0.1% of their non-pension, non-transfer budgets to HIV/AIDS interventions, financed solely from GoU

and/or local revenues. All HIV/AIDS and malaria-related interventions should be budgeted and reported using the designated Chart of Accounts codes. Votes should also provide for epidemic preparedness, surveillance, and rapid response within existing ceilings.

Persons with Disabilities (PWDs)

110. All programmes and public investments should integrate universal access standards. Votes should prioritise inclusive infrastructure, education, skills development, employment, and access to specialised health services and assistive devices for persons with disabilities.

Natural Resource Management and Pollution Control

111. Votes should prioritise interventions for wetlands, forests, and biodiversity conservation, sustainable land use, waste management, and pollution control, including enforcement, monitoring, and community sensitisation, in line with existing laws and regulations.

Transparency, Accountability and Anti-Corruption (TAAC)

112. As you finalize the detailed estimates of revenue and expenditure for FY2026/27, the Inspectorate of Government directs all Accounting Officers of Ministries, Agencies and Local Governments to:
- i. Identify and assess corruption and integrity risks within your mandates, programs and projects, and integrate appropriate mitigation measures during budget formulation;
 - ii. Provide for costed TAAC interventions within existing Program-Based Budgeting structures, focusing on prevention, transparency, accountability, citizen engagement, and internal controls;
 - iii. Mainstream TAAC actions in the design and implementation of new and on-going projects, with clear outputs, performance indicators and timelines aligned to NDPIV governance and accountability objectives;
 - iv. Adopt and integrate the audit, inspection and oversight recommendations, including those issued by the Inspectorate of Government, Office of the Auditor General and Internal Audit.

113. Failure to abide by and integrate the above information in your workplans and budgets will be treated as negligence of duty.

E. TIMELINES AND REMINDERS

Adherence to Budget Submission Deadlines

114. There are Accounting Officers who still do not meet or respect the budget process deadlines. This delays the overall timely analysis, finalization and submission to Parliament for approval of the budget for appropriation since this is done Vote by Vote. Accordingly, all

Accounting Officers must strictly follow statutory deadlines of the Budget Process Calendar for FY 2026/27 to ensure they finalize their budgets in time. Non-compliant Votes will be sanctioned and their operations frozen on the IFMIS.

115. In line with Section 12 (3) of the Public Finance Management Act, Cap 171, all Accounting Officers are required to comply with the following working deadlines in preparation for the finalization and submission of the budget to Parliament by 1st April 2026:

- i. Submit the draft estimates of revenue and expenditure to the Ministry of Finance, Planning and Economic Development and to Equal Opportunities Commission by **Thursday, 5th March 2026**;
- ii. Submit the Ministerial Policy Statements to Parliament by **Thursday, 12th March 2026**; and
- iii. All Accounting Officers to submit their Performance Contracts to this Ministry by **Thursday, 4th June 2026**.

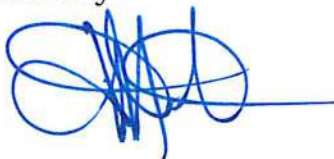

F. CONCLUSION

116. This Circular aims at reinforcing fiscal discipline, performance accountability, alignment to growth drivers, and reduce fragmentation of budget allocations.

117. Strict adherence to the Public Finance Management Act, Cap 171, all attendant regulations, and the directives herein is non-negotiable without breach.

118. For any clarification, contact your assigned Programme Budget Analyst. For technical support on the Programme Budgeting System (PBS), contact the IT Helpdesk at 0414707151 or on our Toll-Free Line: **0800229229**, and also by email: **pbs-support@finance.go.ug** (Monday-Friday, 8:00 am - 5:00 pm).

119. I wish you all the best as we finalize the budget for FY2026/27 and for the continued journey of building a vibrant and self-sustaining economy.

ANNEX 4: RECOMMENDATIONS OF PARLIAMENT FOR FINALIZATION OF THE BUDGET FOR FY 2026/27.

1. Delayed Submission of Budget Documents

Issue: A number of Ministries, Departments, and Agencies (MDAs) submitted Budget Framework Paper inputs and supporting schedules after the statutory deadlines, which constrained the Committee's review timelines and undermined the credibility of the budget process.

Recommendation: Accounting Officers should institutionalize internal submission calendars, strengthen oversight within finance departments, and adhere strictly to timelines prescribed under the Public Finance Management framework.

2. Inadequate Supporting Documentation

Issue: Several votes presented expenditure proposals without detailed activity breakdowns, procurement plans, or cost justifications, limiting the Committee's ability to assess realism and value for money.

Recommendation: MDAs should provide comprehensive budget narratives, itemized cost structures, and implementation plans to enhance transparency and facilitate evidence-based appropriation.

3. Weak Linkage Between Planning Instruments and Budget Allocations

Issue: Misalignment was observed between ministerial/Vote strategic plans, annual work plans, and proposed allocations, indicating weaknesses in results based budgeting practices.

Recommendation: Votes should harmonize planning and budgeting processes by ensuring that all resource allocations are directly traceable to approved strategic priorities and program outputs.

4. Non-Compliance with Gender and Equity Requirements

Issue: Some entities either failed to obtain valid Gender and Equity Compliance Certificates or submitted BFPs that inadequately integrated equity considerations.

Recommendation: All votes must secure compliance certification before budget approval and mainstream gender and equity considerations at the programme design stage rather than as a post-submission requirement.

5. Limited Technical Capacity in Budget Formulation

ANNEX 4: RECOMMENDATIONS OF PARLIAMENT FOR FINALIZATION OF THE BUDGET FOR FY 2026/27.

Issue: The quality of budget submissions from certain entities reflected gaps in technical expertise, particularly in programme costing, performance measurement, and macro-fiscal alignment.

Recommendation: The Ministry of Finance should intensify targeted capacity-building, including hands-on training in programme-based budgeting, forecasting, and performance management.

6. Unrealistic Revenue Projections

Issue: Some entities projected Non-Tax and Local Revenue without credible assessments of collection capacity, sources and/or analysis of historical performance trends, creating risks to budget execution.

Recommendation: Institutions should base projections on verifiable data, strengthen revenue administration systems, and adopt conservative forecasting methodologies.

7. Fragmented Coordination Across Government Entities

Issue: Overlapping mandates and uncoordinated planning resulted in duplication of activities across programs/Votes, potentially leading to inefficient resource use.

Recommendation: Government should reinforce inter-agency coordination through sector working groups and integrated planning frameworks to eliminate redundancies.

8. Accumulation of Domestic Arrears Due to Weak Commitment Controls

Issue: Persistent arrears were linked to inadequate commitment control practices and expenditure undertaken outside approved cash limits.

Recommendation: Accounting Officers must enforce commitment controls, prioritize arrears clearance within budget ceilings, and strengthen internal financial management systems to prevent recurrence.

All NDP IV Programme Technical Heads/ Leadership

SUBMISSION OF REVISED NDP IV IMPLEMENTATION COORDINATION GUIDELINES

Reference is made to *ours ADM/2/01 dated 21st May and 3rd September, 2025* on NDP IV implementation coordination. OPM has since reviewed and updated the NDP IV Implementation Coordination Guidelines to enhance effective review and alignment of NDP IV programme implementation coordination efforts and delivery of the Plan sustainably. The guidelines issued on 21st May and 3rd September 2025 are hereby withdrawn.

The purpose of this communication therefore, is to submit to you the revised guidelines; request you to take note of these developments and proceed with the implementation of the revised Guidelines in coordination with your respective programme teams.

Alex Kakooza

PERMANENT SECRETARY

Copy: Prime Minister and Leader of Government Business in Parliament
Head of Public Service & Secretary to Cabinet
Deputy Head of Public Service, Performance and Service Delivery
Executive Director, NPA

Vision: A Public Sector that is responsive and accountable in steering Uganda towards rapid economic growth and development.

ANNEX 5

THE REPUBLIC OF UGANDA

OFFICE OF THE PRIME MINISTER

The Fourth National Development Plan (NDP) Implementation, Coordination and Reporting Guidance Note

A. Preamble

1. This Guidance Note, issued under the authority of the Prime Minister, sets out the coordination and performance management arrangements for implementing the Fourth National Development Plan (NDP IV) 2025/26–2029/30. It provides guidance to all Ministries, Departments, Agencies (MDAs), Local Governments (LGs), and Programme structures to ensure coherent, accountable, and results-driven delivery of national priorities in line with Vision 2040, the SDGs, EAC Vision 2050, and Africa Agenda 2063.

B. Introduction

2. The Fourth National Development Plan (NDP IV) 2025/26–2029/30 is crucial for Uganda's development, being the fourth plan under Uganda Vision 2040, aiming to transform the country from a peasant society to a modern and prosperous

nation by 2040. NDP IV is significant as it marks the second half of this vision's implementation and is aligned with the Global Agenda 2030 for Sustainable Development Goals (SDGs), East African Vision 2050, and the African Union's Agenda 2063. It also aims to achieve a ten-fold economic growth by 2040 while consolidating the achievements of the NRM government.

3. Successful execution of NDP IV requires effective coordination and service delivery, as mandated by the Constitution of Uganda. To strengthen the coordination function, Deputy Head of Public Service (Performance and Service Delivery) was established to support the Prime Minister in implementing government policies. The Deputy Head of Public Service (DHOPS) office provides link between political leadership and technical execution across MDAs and LGs. This guidance note serves as the framework for NDP IV coordination and reporting. All MDAs and LGs are required to adhere to its provisions.

C. Purpose and Objectives of the Guidance Note

C.1 Purpose

4. This Guidance Note provides a whole-of-government guidance on the coordination and performance management of the Fourth National Development Plan (NDP IV).
5. It sets out the institutional roles, coordination mechanisms, and accountability requirements that MDAs, LGs, and Programme structures must follow in order to ensure disciplined, coherent, and results-driven implementation of government priorities.

C.2 Objectives

The Guidance Note aims to:

6. **Strengthen Coordination:** Institutionalize a harmonized, government-wide framework for coordinating NDP IV implementation, guided by the National Coordination Policy (2016).
7. **Clarify Roles Across Levels:** Define the distinct but complementary responsibilities of political and technical leadership at national, programme, and sub-national levels, ensuring that all actors work in synergy toward NDP IV outcomes.
8. **Enhance Accountability for Results:** Require all MDAs and LGs to adopt standardized reporting, performance management standards, and compliance frameworks that are enforceable through the Office of the Prime Minister.
9. **Promote Inclusive Participation:** Embed the participation of Development Partners, Civil Society, Academia, and the Private Sector in structured Programme Working Groups and multi-stakeholder forums, ensuring that national development is inclusive and consultative.

D. National Coordination Policy Architecture

10. The implementation of the Fourth National Development Plan (NDP IV) is anchored in the National Coordination Policy (2016),

which provides the overarching framework for ensuring connectedness, continuity, and communication across government.

11. The Policy defines coordination as *the process through which government institutions and actors work together to maximize synergies, minimize duplication, and deliver results in an efficient and coherent manner.*
12. At the heart of this architecture lies the mandate of the Prime Minister under Article 108A of the Constitution, which assigns responsibility for the coordination of government policies, programmes, and projects.
13. This mandate is operationalized through the Office of the Prime Minister (OPM), working in close collaboration with the National Planning Authority (NPA), the Ministry of Finance, Planning and Economic Development (MoFPED), and other central agencies.
14. The National Coordination Policy architecture establishes the Institutional Framework for Coordination of Policy and Programme Implementation (IFCPPI), which provides for:
 - i. **The Policy Coordination Committee (PCC):** A Cabinet-level body **chaired by the Prime Minister**, ensuring policy coherence, prioritization, and monitoring of government programmes.
 - ii. **The Implementation Coordination Steering Committee (ICSC):** Comprising Permanent Secretaries and chaired by

the **Deputy Head of Public Service (performance and service delivery)** on behalf of HoPS to direct and align the technical implementation of government decisions.

- iii. **The Technical Implementation Coordination Committee (TICC):** Chaired by the Permanent Secretary, Office of the Prime Minister, this is a multi-sectoral platform that harmonises programme implementation across MDAs and Local Governments.
- iv. **Programme Coordination Structures:** Including Programme Working Groups, Technical Working Groups, and Programme Secretariats to ensure alignment with NDP IV priorities, these are chaired by the respective heads of lead agencies.

15. This overarching framework is designed to foster a whole-of-government approach, ensuring that national priorities are delivered in a structured, coherent, and results-oriented manner, while promoting accountability at all levels of government.

E. Roles of Key Coordination Levels

16. The governance of NDP IV implementation shall be operationalised through a structured architecture aligned with the National Coordination Policy that defines clear mandates for political and technical leadership at national, programme, and sub-national levels. The following roles and Terms of Reference (ToRs) are hereby established as outlined below:

E.1. National Level (Prime Minister and Cabinet)

17. **Role:** Provide overall political leadership, strategic direction, and accountability for NDP IV implementation.

E.2 Terms of Reference (ToRs):

- i. Chair the **Policy Coordination Committee (PCC)** to ensure coherence of policies and alignment to NDP IV priorities.
- ii. Steer Cabinet engagements on NDP IV implementation and performance.
- iii. Provide strategic oversight for resource allocation and programme prioritization.
- iv. Receive and resolve escalated issues from Leadership Committees and the Implementation Coordination Steering Committee (ICSC).
- v. Direct MDAs and LGs on compliance with national priorities and performance requirements.

F. Implementation Coordination Steering Committee

18. **Role:** Provide top-level technical leadership for public service delivery, ensuring that Cabinet decisions are translated into actionable programmes.

F.1 Terms of Reference (ToRs):

- i. Through the Deputy Head of Public Service (performance and service delivery) chair the **Implementation Coordination Steering Committee (ICSC)** of Permanent Secretaries to ensure coherence across MDAs.

- ii. Oversee alignment of ministry plans, policies, and budgets with NDP IV Programme Implementation Action Plans (PIAPs).
- iii. Supervise performance agreements with Accounting Officers, enforcing compliance with agreed NDP IV targets.
- iv. Monitor implementation and escalate unresolved technical and programme issues to Cabinet through the Prime Minister.

G. Programme Coordination Structures

G.1 Leadership Committees (Chaired by Ministers of Lead Ministries)

19. **Role:** Provide political oversight for each programme.

G.2 Terms of Reference (ToRs):

- i. Ensure the Committee is formally and fully constituted.
- ii. Provide political and policy guidance for programme implementation.
- iii. Oversee the development and execution of programme-specific policies and reforms.
- iv. Address implementation impediments that hamper policy execution.
- v. Oversee programme performance against agreed outcome targets.
- vi. Advocate and support mobilization of resources for programme delivery.

- vii. Refer unresolved issues to the ICSC chaired by the Prime Minister.
- viii. Convene quarterly meetings to assess progress.
- ix. Submit bi-annual reports to the Office of the Prime Minister.
- x. Ensure functionality and compliance of the Programme Working Group (PWG).

G.3 Programme Working Groups (PWGs) (Chaired by Permanent Secretaries)

20. **Role:** Serve as the multi-stakeholder technical coordination and steering body for each programme.

G.4 Terms of Reference (ToRs):

- i. Ensure the PWG is formally and fully constituted, with representation from state and non-state actors.
- ii. Facilitate broad stakeholder consultations and harmonize government and partner positions.
- iii. Formulate the Programme Implementation Action Plan (PIAP) in line with NDP IV and the Ruling Party Manifesto.
- iv. Ensure joint clearance of projects for inclusion in the Public Investment Plan.
- v. Align PIAPs and Budget Framework Papers (PBFs) with NDP IV priorities.
- vi. Coordinate inter-ministerial and inter-agency budget allocations, ensuring transparency, accountability, and alignment with programme priorities.

- vii. Provide a platform for consultation and dialogue between state and non-state actors on programme matters.
- viii. Examine and review programme-related policies and plans based on performance, emerging issues, and future needs.
- ix. Identify key priority outputs and performance targets both annually and over the medium term.
- x. Monitor and assess programme implementation against outcome targets and interventions.
- xi. Monitor performance of key strategies under the programme.
- xii. Resolve strategic, cross-institutional, and emerging issues impeding programme implementation.
- xiii. Prepare semi-annual and annual programme reviews and reports.
- xiv. Review and approve programme mid-term review reports.
- xv. Receive and consider reports from their Technical Working Groups.
- xvi. Ensure functionality and compliance of the Technical Working Groups (TWGs) and Programme Secretariat.
- xvii. Refer any unresolved issues to the Institutional Coordination Steering Committee, chaired by the Deputy Head of Public Service.

G.5 Technical Working Groups (TWGs)

21. **Role:** Provide technical expertise and thematic focus under each PWG.

G.6 Terms of Reference (ToRs):

- i. Organize around specific thematic areas within each programme.
- ii. Provide subject-matter expertise and technical guidance on programme reforms and implementation.
- iii. Conduct analysis, policy reviews, and assessments to inform programme design and course correction.
- iv. Generate evidence-based recommendations for submission to PWGs.

G.7 Programme Secretariats (Housed in Lead MDAs)

22. **Role:** Serve as operational and administrative hubs for programme coordination.

G.8 Terms of Reference (ToRs):

- i. Facilitate regular programme-level planning, budgeting, and performance review engagements.
- ii. Ensure timely reporting and data flow to the Office of the Prime Minister.
- iii. Provide administrative, logistical, and technical support to Leadership Committees, PWGs, and TWGs.
- iv. Mobilize participation of all programme actors, including MDAs, Development Partners, Private Sector, Academia, and Civil Society.
- v. Coordinate follow-up and execution of decisions made by the Leadership Committee, ICSC and PWG.

G.9 Sub-National Level (Local Governments)

23. **Role:** Localize and implement NDP IV priorities through District and City Development Plans.

G.10 Terms of Reference (ToRs):

- i. Align District Development Plans and budgets with NDP IV PIAPs.
- ii. Establish and operationalize PWGs at the district and city level with representation from both state and non-state actors.
- iii. Provide technical guidance, capacity building, and mobilization for local-level programme coordination.
- iv. Report on service delivery performance and outcomes through harmonized government monitoring and evaluation systems.
- v. Facilitate citizen participation and accountability through Barazas and other community engagement forums.
- vi. Ensure synchronization and standardization of local PWGs and Programme Secretariats with national coordination arrangements.

H. Implementation Arrangements

24. To operationalize the NDP IV coordination architecture and ensure full compliance across government, the following arrangements are hereby instituted:

H.1. Strengthening Institutional Coordination Capacity

- i. The Office of the Prime Minister (OPM) shall strengthen the National Coordination and Reporting Secretariat and all Programme Secretariats housed in Lead MDAs.

- ii. Adequate resourcing, staffing, and training shall be provided to ensure that secretariats are functional, professional, and results-oriented.

H.2 Standardization of Coordination and Reporting Frameworks

- i. OPM will issue standard operating procedures (SOPs), templates, and reporting guidelines for all MDAs, LGs, and Programme structures.
- ii. Reporting timelines (quarterly, semi-annual, and annual) shall be uniform across government and strictly enforced.
- iii. The web-based M&E system at OPM shall be the primary platform for reporting and performance tracking.

H.3 Institutionalization of Performance Review Forums

- i. Quarterly Programme Coordination Review Forums shall be convened by OPM, chaired by the Prime Minister and the Head of Public Service.
- ii. The DHOPS (Performance and Service Delivery) shall facilitate Permanent Secretary-level review sessions, ensuring Cabinet decisions are implemented and bottlenecks addressed in real time.
- iii. National Annual Performance Review Conferences shall be held to present progress, challenges, and lessons to Cabinet, Parliament, Development Partners, and citizens.

H.4 Joint Coordination and Performance Audits

- i. OPM shall conduct periodic joint inspections and performance audits in collaboration with the Office of the Auditor General, NPA, MoFPED, and other oversight agencies.
- ii. These audits will verify delivery against NDP IV targets, highlight compliance gaps, and recommend corrective measures.

H.5 Integration with National Systems

25. NDP IV coordination will be fully integrated with national systems, including:

- i. **Programme Budgeting System (PBS)** for budget alignment.
- ii. **Integrated Financial Management System (IFMIS)** for expenditure tracking.
- iii. **Integrated Bank of Projects (IBP)** for project appraisal and monitoring.
- iv. **Web-based M&E system (OPM)** for real-time reporting and performance dashboards.

H.6 Capacity Building for Coordination

- v. OPM shall coordinate targeted capacity-building programmes for MDAs, LGs, and Programme Secretariats.
- vi. Training shall focus on results-based management, data use in decision-making, and stakeholder engagement.

- vii. Development Partners and academia will be engaged to support training and knowledge sharing.

I. Compliance, Oversight, and Enforcement

26. Implementation of the Fourth National Development Plan (NDP IV) shall be subject to strict compliance measures, with oversight and enforcement led by the Office of the Prime Minister (OPM). All Ministries, Departments, Agencies (MDAs), Local Governments (LGs), and Programme coordination structures are hereby directed to adhere to the following:

I.1 Establishment of Functional Coordination Structures

- i. Each Programme must have an operational Leadership Committee, Programme Working Group (PWG), Technical Working Groups (TWGs), and Programme Secretariat.
- ii. All Districts and Cities shall establish functional Local Government PWGs and Secretariats aligned to national standards.
- iii. Non-compliance with these requirements will constitute a breach of directive and attract sanctions.

I.2 Mandatory Reporting Requirements

- i. MDAs, LGs, and Programme structures shall submit standardized quarterly, semi-annual, and annual reports to OPM and through the OPM's web-based M&E system when finalised.

- ii. Reports must capture progress against PIAP targets, budget execution, and service delivery performance.
- iii. Failure to submit reports on time or in the approved format will trigger administrative action.

I.3 Oversight Mechanisms

- i. The **Prime Minister** will oversee government-wide compliance and report progress to Cabinet and Parliament.
- ii. The **Head of Public Service** will supervise Responsible Officers through performance agreements tied to NDP IV targets.
- iii. The **DHOPS** will convene quarterly forums of Responsible Officers to review compliance, performance gaps, and service delivery challenges.
- iv. The **National Coordination and Reporting Secretariat** will provide technical oversight, review submissions, and generate performance dashboards for Cabinet and stakeholders.

I.4 Performance Audits and Inspections

- i. OPM, in collaboration with NPA, MoFPED, PPDA and stakeholders shall conduct regular joint inspections and audits of programme implementation.
- ii. Field visits, data verification exercises, and stakeholder feedback will form part of compliance checks.
- iii. Findings shall inform Cabinet decisions, sanctions, and resource allocation adjustments.

J. Rewards and Sanctions Regime

- i. MDAs and LGs that demonstrate strong performance, compliance, and innovation in NDP IV implementation shall be recognised through rewards.
- ii. Persistent non-compliance or underperformance shall attract sanctions, including:
 - Administrative actions against Accounting Officers.
 - Withholding or reallocation of budgets.
 - Escalation of issues to Cabinet for further action.

K. Inclusive Accountability

- i. Parliament, Development Partners, Civil Society, Academia, and the Private Sector shall play complementary roles in monitoring government compliance with NDP IV directives.
- ii. Mechanisms for citizen engagement, including Barazas and public reporting platforms, shall be strengthened to ensure transparency and accountability to the people of Uganda.

L. Communication and Guidance from the Prime Minister

27. In exercise of the authority vested in the Prime Minister under Article 108A of the Constitution of the Republic of Uganda and in line with the National Coordination Policy (2016), this Guidance Note is hereby issued as a whole-of-government guidance for the implementation of the Fourth National Development Plan (NDP IV) 2025/26–2029/30.

28. All Ministries, Departments, Agencies, Local Governments, Programme Governance Structures, and oversight institutions are guided as follows:

- i. **Adopt and fully operationalize the NDP IV coordination architecture** as outlined in this Guidance Note, including Leadership Committees, Programme Working Groups (PWGs), Technical Working Groups (TWGs), and Programme Secretariats.
 - ii. **Comply with mandatory reporting requirements**, including quarterly, semi-annual, and annual submissions through OPM, ensuring accuracy, timeliness, and accountability for results.
 - iii. **Participate in all coordination platforms** at national, programme, and sub-national levels, including quarterly review forums convened by the Prime Minister and Head of Public Service.
 - iv. **Ensure full alignment of institutional plans and budgets with NDP IV**, Uganda Vision 2040, Agenda 2030 (SDGs), EAC Vision 2050, and Africa Agenda 2063.
 - v. **Facilitate inclusive participation** of Development Partners, Civil Society, Academia, Private Sector, and citizens in the implementation and monitoring of NDP IV.
 - vi. **Abide by the compliance and enforcement framework** established herein. Non-compliance will attract sanctions, including administrative actions, budgetary reallocation, and escalation to Cabinet.
29. This guidance shall take immediate effect. All public institutions are once again reminded that effective coordination and performance are binding obligations, not optional undertakings. The Office of the Prime Minister shall rigorously monitor

compliance and enforce accountability at all levels to ensure the successful delivery of NDP IV.

30. The Government of Uganda counts on the discipline, collaboration, and results-driven commitment of all actors to realise the aspirations of NDP IV and place Uganda firmly on the path to Vision 2040.
